

4 Seasons in a Day

Original title: 4 Seasons in a Day

Each day, the Carlingford Lough ferry carries people across the border between Northern Ireland and Ireland. This short journey brings different stories and reflections to the surface, while the border hides beneath the water. The film creates a kaleidoscopic narrative based on how people's thoughts and daily lives relate to this invisible line.

CREDITS

DIRECTOR: Annabel Verbeke

PRODUCER: Frederik Nicolai
