

Alfie, The Little Werewolf

Original title: Dolfje Weerwolfje

Alfie has no idea what is happening to him when, on the night of his seventh birthday, he is transformed into a white, fluffy animal: a little werewolf. He has always felt different from his foster parents and foster brother Timmie, but this is a little too different. At night, when it's a full moon, he runs through the park and his neighbours' gardens happily hunting ducks and chickens. When daylight comes, he goes back home tired and wakes up as a little boy. Alfie wants to protect his secret at all costs. But is this possible? There will be a full moon every month...
