

Baldilocks

Original title: Kaalkapje

Nowadays, the hospital welcomes me as a medical miracle. It feels ungrateful to admit to the doctors who did everything in their power to save me that I'm not very keen on living. I've been cured, but not without being physically and mentally damaged by the treatment. Through the lens of my father's camera, I look back at a period of my life of which I remember nothing. Twenty years on, I search for traces of the illness between my scars and my desires.

CREDITS

DIRECTOR: Marthe Peters
