

Before We Move

Original title: Before We Move

This film documents Russian gay couple Misha and Otar organising the events of the Queer Tango in St. Petersburg. They are giving tango classes and introducing an alternative way of dancing to the traditional tango community. Now the best Queer Tango dancers from around the world are travelling to Russia for the Festival. When it is over, Misha and Otar must make a decision about their migration to Israel. Recent high levels of homophobia in Russia forces many gays and lesbians to leave their families to find a refuge abroad. But when narrow-minded traditionalism and xenophobia are rife in the world, it is important to continue to dance the tango no matter what gender, sexual orientation or country you are from.
