

Behind The Redwood Curtain

Original title: Behind the Redwood Curtain

Behind The Redwood Curtain takes the viewer on a mesmerising journey through the dark and eerie Redwood forest. Seven forest dwellers - loggers, scientists, activists and Native Americans - invite us to discover their part of this landscape. There are no Walmarts and Starbucks here, just small towns and big trees. The ancient Redwoods have always kept the region isolated but now that excessive logging is encroaching, the survival of this unique habitat is under threat.
