

Belgische Toekomsten/Des Beliques Possibles

Original title: Belgische Toekomsten/Des Beliques Possibles

Via interviews with seven Belgian scientists and artists, four scenarios for the future of Belgium are presented. The first is continuation; the second is collapse: social, economic or environmental. When the threat of collapse is answered with strict rules, regulations and social control, a disciplined society will develop. In a final scenario, new answers are formulated to address the problems and opportunities.
