

Bitter Flowers

Original title: Xia Hia / Marcheuses

Lina is an aspiring young woman, happily married and mother to a 10-year-old boy. However she senses that the world around her is collapsing. It's the end of the 20th century, Dong Bei, a former prosperous industrial area can't seem to adjust to China's mutation. Lina wants to fit into this emerging society, furthermore she wants a brilliant future for her son. Lina leaves for Paris hoping to quickly gather up funds to come back to Banxi. But over there nothing goes as planned and like the women who left before her, Lina hides the "shameful" reality of her life in France from her loved ones. Her lie won't be without consequences and Lina will acknowledge that some things are priceless.
