

Blush

Original title: Blush

A dance film by choreographer/director Wim Vandekeybus and his company Ultima Vez, based on the popular stage performance. An integral part of the Blush performance is a film, shot by Vandekeybus, in which his dancers swim with real-life dolphins and run through a cane field. The dancers, from the stage, dive in and out of the screen as though they are literally joining the dancers in the water, only to reappear on screen or on stage a couple of seconds later. This interaction between the different media also forms the central theme of the film. The film's remarkable exteriors were shot on Corsica, with Brussels used for interiors.
