

# Cherry Blossoms

Original title: Cherry Blossoms

Carly works late in the European Parliament, but wants to prepare a documentary about Japanese subcultures. Carly translates monotonously from Japanese, but more and more she becomes attracted by the punk looking girls being interviewed. An actress plays the role of Carly, but the interviews with the Japanese girls are documentary footage shot by An van Dienderen in Harajuku, Tokyo. This minimalist portrait reflects the complexities of translation in the European Parliament, the only place worldwide where all the texts used and produced are translated daily into as many as 23 languages.

## CREDITS
