

Claire, Me and My Brother

Original title: Claire, ik en mijn broer

Documentary filmmaker Maris De Smedt spent a year capturing the lives of 18-year-old triplets; Claire, Michelle and Vincent. They were born in that order and seem likely die in this order as well as the two girls suffer from cystic fibrosis. Claire's death causes an abrupt and heart-breaking end to their trinity. Michelle and Vincent are left, forever in search of the lost whole.
