

Coup de Grace

Original title: Coup de grâce

Coup de Grace is a film woven around a performance by Alain Platel and Fabrizio Cassol named ***Coup Fatal***, which involves 12 musicians from Kinshasa who are inspired by baroque composers and their diverse repertoires. This film focuses on the lives of the musicians during their tour of Europe and Kinshasa. By sharing their daily experiences online with their loved ones, the contact with their homeland and their roots is sustained, and a bridge created between the culture of the space they occupy and the culture they left at home.
