

Das Haus

Original title: Das Haus

Das Haus is a new work that expands on the exploration of sculptural architecture which Aglaia Konrad conducted with the series of 16mm films, Concrete and Samples. Shot in a house designed by architect Juliaan Lampens in Belgium's Sint-Martens-Latem, the film explores the artist's interest in the possibilities of the cinematic medium to generate -rather than capture - an architectural experience.

CREDITS

DIRECTOR: Aglaia Konrad
