

# Die Fliege Fliegt und stürzt verrückt

Original title:

'die Fliege' is a series of drawings which become animation following their own intrinsic logic. Metamorphosis. One line leads to the next. A mythological journey from the lyric to the tragic and back again. Or somewhere in between. With no map at hand, this is a quest which relies on a healthy dose of intuition, and fair winds. 'die Fliege' is also a live performance, in which the film is brought to you by one woman, her voice, and an orchestra of quirky self-made machines. All the elements meld into a single experience, and the glue which holds it all together is the woman. This is her world. She made it.
