

Doctor Fabre Will Cure You

Original title: Doctor Fabre Will Cure You

A fictitious portrait of the Flemish artist Jan Fabre based on his diary, his visual works and his performances. The film projects Fabre into his own imaginative universe where he plays numerous roles in a variety of disguises, donning mask after mask. The female character, like a 'demon of passage' using different faces, haunts the male protagonist and inspires his metamorphoses ad infinitum...
