

Electric Girl

Original title: Electric Girl

The German poetry slam scene is captivated by the young storyteller Mia (23) and her spontaneous, unpredictable talent. Unexpectedly, she gets a job dubbing a role in a Japanese anime series that sees superheroine Kimiko saving Tokyo from an apocalyptic power outage. Enthused by the dubbing work, Mia throws herself into her new role. She can see electricity, jump off roofs, save people's lives. But Mia's super powers also sharpen her awareness of an impending danger: that Hamburg is under real threat of a super blackout. These forces are starting by taking aim at Mia - the only one who can avert the impending catastrophe!
