

Femmes d'Agadez

Original title: Femmes d'Agadez

Femmes d'Agadez is situated in the political context of northern Niger, against the backdrop of European interference in regional border disputes. The film focuses on the story of a number of activist women in Agadez who have established feminist collectives in the city. The stories of these inspiring women will be interwoven with conversations between several Belgian and Nigerian filmmakers about how to install a space where democratic imagination can exist.
