

For a While

Original title: Nu nog niet

For a While is the result of a community project that Victoria Deluxe made at the request of the OCMW of Ghent. During 2006, artists Luk Nys and Ellen Vermeulen worked in the St-Jozef care home in Ghent, focusing on themes such as life, love, letting go and death. The documentary is a testimony of the residents, as well of their families and the people who work at the home.
