

Hitler's Atlantic Wall

Original title: Hitler's Atlantic Wall

Hitler's Atlantic Wall tells the exciting story of the German Atlantic line of defence during the Second World War. On Hitler's orders, hundreds of thousands of people have built a gigantic wall of bunkers, cannons and fortifications from the north of Norway to the Pyreneans, some 4,500 kilometres long. A megalomaniac project and a painful memory of a sombre episode in Western history. Hitler's Atlantic Wall is a testimony to brilliancy, but also the lust for power and the madness of the Nazi thinkers and strategists. But this is also a story of those who lived, worked, fought and often died there.
