

Inzicht

Original title: Inzicht

What is the best decision you have ever made? Inzicht is a window into the lives of six different people: the important choices they made and how those choices led them in a certain direction. Love, career, children, passion, wealth, happiness ... Their choices differ depending on age, gender and experience and on whether someone is looking forward to the future or back on one's life. The film gently enters each person's intimate world, offering glimpses of lives, alternatives and possibilities but also of something universal. We are all facing these questions and consciously or unconsciously we formulate our own answers.

CREDITS

DIRECTOR: Pol Vanlaer, Jeroen De Schepper
