

Iron Sky - The Coming Race

Original title: Iron Sky - The Coming Race

Twenty years after a nuclear war ravaged the Earth, what's left of humanity lives in a crumbling base on the Dark Side of the Moon... but they can't survive there much longer. Obi, the daughter of the Moonbase's leader, finds a glimmer of hope: an ancient map pointing into the Hollow Earth. Now Obi, along with Sasha the Russian Pilot and her best (and most muscular) friend Malcolm, venture to the centre of the ruined planet to face an army of dinosaurs guarding mankind's last hope for salvation: the Holy Grail.
