

Jan Hoet – Thank God for the Gift

Original title: Jan Hoet - Thank God for the Gift

Jan Hoet - Thank God for the Gift tells the story of one of the most striking figures of recent Belgian art history. A top curator, Jan Hoet was a passionate man with an unquenchable thirst for art, radical in his honesty and in his pursuit of total intellectual and emotional freedom. We follow his rise from insecure young man to become a lion of the art world, who could make or break artists. Along the way there are great successes, lots of praise and just as much criticism. Many friends, and many enemies...
