

Just Friends

Original title: Just Friends

Jack has a tenor saxophone and he plays jazz. In the 1950s, in the Belgian harbor town Antwerp, there is not a lot of future for a jazz musician. Jack and his band try to earn a living by playing at weddings and the odd tea party, usually resulting in mixed emotions and hilarious scenes. Most of the time, he earns a living by unloading bananas in the Antwerp docks. Jack is convinced that New York is the place to be for a jazz musician, but where will he get the money for the big trip? And what is more important: a woman or a saxophone?
