

Maregrave

Original title: Maregrave

The coastline forms the border between water and land. This line is constantly moving. The sea takes along everything that comes in its path, slowly changing into a graveyard of sunken souls and a collection of human objects. Future generations will not be spared: several experts predict the rise of the sea level. More and more human territory is under threat to become part of the sea's ever-increasing collection.

CREDITS

DIRECTOR: Justine Cappelle
