

Moresnet

Original title: Moresnet

When his father passes away, Ben Schotz returns to his hometown, Moresnet. Together with his childhood friends, including determined journalist Zoë Kuypers, he decides to dig up a time capsule they buried 24 years earlier. Inside, they find the diary of Ben's mentally ill brother, Daan. On the last page of the diary is a list of names, together with dates prophesying when they will die. All the dates fall in the coming fortnight. How did this list end up in a 24-year-old diary? And why these names in particular? In a race against time, Ben and Zoë try to avoid their apparently irreversible destiny.
