

# Motherless

Original title: Motherless

On the vast plains of southeast India lies a village, Sevapur, with a special connection to Belgium. In 1968, Belgian Lea Provo had a dream of building a village and moved to India to start a community based on equality and self-sufficiency. Fifteen years after 'Mother' Lea's death, the film visits four people who still live and work there. Having to stand on their own feet, the people of Sevapur face the harsh reality of a changing world. What remains of Lea's dream?
