

Mourning Diary

Original title: Rouwdagboek

"And I know, my whole life, I'll be torn between the soft happiness of feeling your presence in all that is around me and the sometimes unbearable simple awareness of never holding you again." Momentary shots, taken by a daughter who lost her mother. The letting go, the ups and downs, all of them tacitly contained in the simplicity of this autobiographical image. A movie as a mourning process.

CREDITS
