

Mussels in Love

Original title: L'amour des moules

Mussels can provide humanity to many things as, among others, gynaecologist Jan will attest to as he uses the glue that mussels produce to save unborn babies. At the same time, we also meet both biologists and cooks who, in their own ways, deal with mussels in their everyday lives - from when they are born at the bottom of the sea to when they end up on our plates, in an aquarium or a laboratory.
