

Natasha

Original title: Natasha

Russian bear Nicolaï emigrates to Europe to prove to the love of his life (his beautiful ex-wife Natasha) that he's not a loser. To convince Natasha that he's the one and only for her, he wants to get his 'Official European ID card' as soon as possible. But this is not easy as he lives and works in a zoo inside the fridge in which he was smuggled into Europe. During the day he works as a bear; in the evening he tries to forget his problems by playing the piano. Immigrants come and go, and one day a certain Gennady arrives at the zoo. He turns out to be Natasha's new husband...
