

Northern Drift

Original title: Northern Drift

Northern Drift is set in the wilderness of the Russian-Norwegian borderland, in Europe's far north. Home to the indigenous Sami culture, the frontier area first saw industrial development in the late 19th century, and the landscape still bears visible traces of 20th century conflicts. Now it is the focus of a northward expansion, fuelled by the sense that climate change will make the north an untapped economic goldmine.

CREDITS

DIRECTOR: Alexis Destoop

PRODUCER: Alexis Destoop

WRITER: Peter Eckersall, Alexis Destoop

EDITING: Laurence Vaes
