

# Parasisi

Original title: Parasisi

In the north of the Amazon rainforest, the Lawa River flows through the territory of the indigenous Wayana people. On both sides of the river, they are threatened by the rise of illegal gold mining, which poisons the entire region with mercury. As a result, this ancient habitat is overrun by intruders, who the Wayanas call "Parasisi". The Wayanas guide us through their reality, revealing their silent struggle for self-determination, fundamental rights, identity, security, and health.
