

Persona Non Grata

Original title: Persona Non Grata

Persona Non Grata is the epic story of the life of Frans Wuytack. After 30 years of exile, he returns to South America with his son, film director Fabio Wuytack. Their journey encompasses the Venezuelan slums where Frans unchained a social and cultural revolution as a young priest in the 1960s. A mix of humorous and touching people take Fabio on a voyage through the maze of his father's exciting past. The poetic film style lifts the story beyond the borders of a biopic and confronts us with some of the most important moments in the second half of the 20th century.
