

Planet B

Original title: Planeet B

Thirteen-year-old Bo grows up in a protected environment where everything seems possible, but she is frightened by the dark predictions of the future. Together with her friend Luca, she decides to take up the fight against climate change, and they join Extinction Rebellion. They occupy factory sites and highways; they are arrested and criticised. But what are politicians doing? Why does all this take so long? As Luca proposes increasingly radical actions, the more thoughtful Bo wants to find her own way. *Planet B* is a coming-of-age story about two youngsters exploring how to grow up in a world destroying itself.
