

Remember Your Name, Babylon

Original title: Diurno Doliente

Between the corridors of greenhouses of a new plastic-wrapped world appear small slums where men and women, who crossed the sea in search of a better life, take shelter. In the heart of this breathless Eldorado, everyone tries to piece together the debris of a world that seems forever lost. The sun burns the ground as all hopes of an escape vanish. Only small everyday gestures can keep hold of time, suffocating its anger.
