

Remote

Original title: Remote

Remote is a suggestive story - a portrait of a tender companionship in the Irish countryside set in the simplicity of the moment, the waiting and the repetition of days. This is a place where there is no space for imagining a future other than the perpetual repetition of the present. This is a place for survival, alone with the wind, eyes burnt by the light - a place of unspoken tenderness, a landscape of silence and solitude in which there will always be someone.
