

Scream Test

Original title: Scream Test

The director accompanies the person in front of the camera through the forgotten corridors of their personality. The 'Scream Test' reveals a pre-historic instinct and innate experience through the performer's body. The scream is a personal release: it actualises the presence of aggression, touching upon the dimension of collective fear. Its high pitch abruptly interrupts the routine course of daily life. Provoking instant and total mental absorption, the scream paradoxically brings us back to reality, to the current time of now.
