

Song For The Price Of A Goat

Original title: Lied voor de prijs van een geit

An exceptional documentary about the life of Luigi, an Italian shepherd in Brussels. Luigi's life is a counter-symbol for today's communication and consumption society. Every day Luigi walks with his herd along the periphery of Brussels. Every day the same road, every day the same rhythm. Song For The Price Of A Goat is a tribute to pureness, slowness and happiness. And to Luigi and his homeland Italy (Sicily). The documentary is put to a broader perspective: the personal - individual as opposed to the universal - collective.
