

# Song Mountain Area – The Centre Direction

Original title: Song Mountain - The Centre Direction

Song Mountain - The Centre Direction (book and DVD) paints a portrait of a mountain situated in the Chinese district of Dengfeng in the middle of Henan province. The mountain is holy and the area renowned for its martial-arts tradition. The mountain base is inhabited and the surrounding area is mainly a mining district. This combination of activities, this coalition of dust and bodies: is it coincidental, collateral or merely a minor detail in the eternal realms of Chinese cosmology?
