

Sthlm Requiem

Original title: Sthlm Rekviem

Sthlm Requiem follows inquiry agent and criminologist Fredrika Bergman when she accepts a position with the Stockholm Police. She's recruited by their special investigation's unit, and is rarely welcomed by the department. However, her different background and exceptional talent gives her a unique perspective that, in the end, helps the unit solve their cases again and again. Stockholm is arguably a character in its own right in Sthlm Requiem. The new and modern police headquarters act as the main hub for the show's action. The rooftop offers a view of the entire city, revealing a scenscape undergoing extensive changes as the old Stockholm gives way to the new. Each of the show's five films features a concluded case, all linked together by the main characters' personal journeys.
