

# The Cradle of the Little Pisser

Original title: De wieg van het pissend ketje

An investigation into the strangest emblem ever adopted by a city - that of a urinating child - and into the often tragic and sometimes comic twists of fate suffered by one of the world's most beautiful architectural developments: the Grand Place in Brussels. For what mysterious reasons did Brussels, a small and fairly unexceptional city, become the capital of Europe? Does it owe this honour to chance or to a particular characteristic?
