

The Naked D

Original title: The Naked D

The black market in diamonds seems like a lucrative and profitable market for two friends. But in Africa, things go horribly wrong. They discover a diamond mine in the jungle. When one of them decides to hide some of the diamonds, his friend murders him even though he doesn't know where he hid the diamonds. He receives some help from a girl who saw where his friend hid them. But when the police discover the murdered body, they don't only have to run from the police but also from the primitive tribes who live in the jungle. They are caught in a trap and are shot.
