

The Night Tunnel

Original title: Maantunnel

When clouds cover Blankenberge beach, seven-year-old Jordi and his dog Valentino are left on their own. Jordi digs a hole while Valentino watches. The hole becomes a tunnel containing colourful rapids that sweep Jordi deep underground. He emerges in Kenya, where he is greeted by Mila and her giraffe Kenzo. Mila digs another hole and the duo tumbles through more rapids, landing at the snowy North Pole with Olga and her walrus Givenchy. They play in the snow until Mila and Jordi are drawn into a luminous whirlpool. It's another tunnel! Jordi falls from the moon into the sea, returning to Blankenberge.
