

Through Thick and Thin

Original title: Dikke vrienden

Filmmaker and screenwriter Marc Didden (60), who has been struggling with obesity for over 40 years, explores the meaning of being overweight on a personal, medical and cultural level, starting off with his own situation. He literally puts his own body on display in this production, but he also lets the experts do the talking. The viewer doesn't have to worry: no shocking images such as stomach operations or liposuction are shown in this touching film about what is almost a taboo subject.
