

Waves

Original title: Golven

Waves is a film exploring the art of listening. The world is loud: it creaks, crackles, stomps and rumbles, and we are here to listen. By opening our ears, we achieve new experiences and a sense of togetherness. Not everyone can cope with the noisy world around us: some cover their ears, but that never results in silence because, for those who listen, silence does not exist.

CREDITS

WRITER: Nina De Vroome
